# IS A HEALTHY BUSINESS A CLEAN BUSINESS

Consumers are becoming increasingly educated about health and environmental concerns and faster to voice both their displeasure and praise regarding their experience. This is especially true in foodservice establishments where cleanliness, health and sustainability has become an even more important part of establishing and protecting your establishment's image and keep customers coming back.

**Chemotec** is a manufacturer of liquid and powder cleaning products, serving the **Janitorial**, **Industrial** and **Foodservice** industries since 1955. We pride ourselves on providing high quality, innovative products supported with unequalled customer service, marketing tools and attention to our customer's needs.

Our product assortment includes floor care, cleaners and degreasers, disinfectants, odour control, window cleaners, carpet care, hand soaps, laundry detergents and a complete line for kitchen hygiene.

In 2005, we launched our **Safeblend** line of green cleaning products and we continue our commitment to making products that are environmentally preferable and sustainable.
