POTENTIAL HEALTH EFFECTS (for more details, refer to Section 11)

Primary entry route(s): Eye and ingestion.

Eye: May cause slight irritation.

Skin: No effect expected for normal applications

Inhalation: No effect expected.

Ingestion: May cause slight irritation, diarrhea, and nausea.

Long-term (chronic) exposure: Prolonged contact with the product may cause dryness, slight irritation.

Conditions aggravated by exposure: None expected.

Carcinogenic status: See TOXICOLOGICAL INFORMATION, Section 11.

Additional health hazards: For further information, see TOXICOLOGICAL INFORMATION, Section 11.

Potential environmental effects: See ECOLOGICAL INFORMATION, Section 12.

SECTION 4 - FIRST AID MEASURES

Eye contact:

Immediately rinse with plenty of water for 15 minutes, keeping eyelids open. If irritation persists seek medical attention immediately.

Skin contact:

No effect expected.

Inhalation:

No effect expected.

Ingestion:

If conscious, give plenty of water. Never give anything by mouth if the person is unconscious. Do not induce vomiting. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Fire hazards/conditions of flammability:

Not flammable under normal handling conditions. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

Flash point (Method): None

Lower flammable limit (% by volume): N/Av

Upper flammable limit (% by volume): N/Av.

Explosion data - Sensitivity to mechanical impact: Not sensitive

Explosion data - Sensitivity to static discharge: Not sensitive

Auto-ignition temperature: N/Av

Suitable extinguishing media:

Water, foam, dry chemicals, carbon dioxide.

Special fire-fighting procedures/equipment:

During a fire, irritating smoke and fumes may be generated. A self-contained breathing apparatus is required for fire-fighting personnel to protect themselves from irritating products produced during the combustion. Move containers from fire area if it can be done without risk. A stream of water directed into the product generates a lot of foam.

Hazardous combustion products:

Oxides of carbon and nitrogen and other irritating gases.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions:

Wear adequate personal protective equipment (See Section 8).

Spill response/Cleanup:

Stop the leak if you can do so without risk. Pump the product into drums for disposal; or clean up spills using absorbent material and place in waste container for destruction. Resume cleaning by rinsing with water.

Environmental precautions:

Biodegradable.

Prohibited materials: N/Av

Special spill response procedures: N/Av

SECTION 7 - HANDLING AND STORAGE

Safe handling procedures:

Avoid contact with eyes and clothing. Keep away from heat and flame. Keep containers closed when not in use. Do not use with incompatible materials such as strong oxidizing agents.

Storage requirements:

Store in a tightly sealed container, in a well ventilated room. Do not store with food products. Keep from freezing.

Special packaging materials: N/Ap

SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

Engineering controls:

Not required under normal applications.

Respiratory Protection:

Not required under normal applications.

Skin protection and other protective equipment:

Rubber gloves may be worn to avoid contact with product.

Eye / face protection:

Nor required for normal applications.

General hygiene considerations:

KEEP OUT OF REACH OF CHILDREN. Avoid contact with eyes. Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material.

Permissible exposure levels: For individual ingredient exposure levels, see Section 2.
