#### Eye contact:

Immediately rinse with plenty of water for several minutes, keeping eyelids open. If irritation persists seek medical attention.

#### Skin contact:

Rinse with water. If irritation develops, consult medical personnel.

Inhalation:

Bring person to fresh air.

Ingestion:

Rinse mouth. Call a doctor if you feel unwell. Never give anything by mouth if the person is unconscious **4b Most important symptoms and effects** 

*Eye:* May cause irritation, redness, tears, burning sensation.

*Skin:* May cause irritation.

Inhalation: May cause irritation to respiratory tract.

*Ingestion:* May cause slight irritation, headache, abdominal pain, diarrhoea, nausea and vomiting.

#### 4c Immediate medical attention and special treatment needed

No special treatment

# SECTION 5 - FIRE FIGHTING MEASURES

#### 5a Extinguishing media

Suitable extinguishing media: Water (if possible avoid powerful sprays), foam, dry chemicals, carbon dioxide. Product itself is not flammable. Unsuitable extinguishing media: None known.

#### Specific hazards for product

Hazardous combustion products:

Oxides of carbon and other irritating gases.

# Special protective equipment and precautions for firefighters

Special fire-fighting procedures/equipment:

During a fire, irritating smoke and fumes may be generated. A self-contained breathing apparatus is required for fire-fighting personnel to protect themselves from irritating products produced during the combustion. Move containers from fire area if it can be done without risk. A stream of water directed into the product generates a lot of foam.

# SECTION 6 - ACCIDENTAL RELEASE MEASURES

## 6a Personal precautions, protective equipment and emergency procedures

Personal protection:

Wear gloves and safety glasses. Use adequate aeration and ventilation. Floor will be slippery in case of a spill. Use

appropriate personal protection equipment (see section 8)

#### 6b Methods and materials for containment and cleaning:

Pick up product and put back in containers or into drums for disposal. Resume cleaning by rinsing with water. Caution: floors will be slippery.

## 6c Environmental precautions:

Product is biodegradable and is phosphate-free.

# SECTION 7 - HANDLING AND STORAGE

#### 7a Precautions forSafe handling:

Avoid contact with eyes and prolonged contact with skin. Avoid breathing dust.

#### 7b Condition for safe storage:

Store in a sealed container in a well-ventilated place. Do not store with food products.

#### 7c Special packaging materials: none.

Avoid contact with strong acids.
