Dear Mr. Foley:

RE: **Safeblend Dish Detergent, Lemon**
Safeblend Dish Detergent, Premium Lemon
Safeblend Dish Detergent, Natural, dye-free, fragrance-free
Safeblend Dish Detergent, Econo Natural, dye-free, fragrance-free
Safeblend Dish Detergent, Premium, pink grapefruit

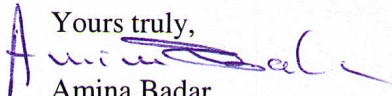

This is in response to your letter of January 24, 2014, wherein you submitted information regarding the above-mentioned products which are intended to be used as dish detergents in food processing establishments.

Based on the information submitted, we can advise that we see no reason to object to the composition and use of these products as dish detergents in food plants provided that:

- a) There will be no contamination of food as a result of their use;
- b) They are used in the minimum amount required to achieve the technical effect;
- c) Cookware or utensils and other surfaces subject to direct contact with food are thoroughly rinsed with potable water prior to re-use; and
- d) They do not leave any residual fragrance on dishes after the potable water rinse (for those products which contain fragrance).

The labels of the products are deemed acceptable for their use in food plants.

We trust that the foregoing will be of use to you.

Yours truly,

Amina Badar
