Dear Mr. Foley,

RE: Resistol Gloss

This is in reference to your letter dated February 6, 2018, seeking our comments on the acceptability of the subject product for use as a floor finish in food processing establishments.

Based on the information submitted, we can advise that we see no reason to object to the use of the subject product as proposed in food processing establishments, provided that:

- a) it is only used on **non-food contact surfaces** such as floors, as stated on the label;
- b) the product is only used in the minimum amount required to achieve the intended technical effect;
- c) it is used under **well-ventilated conditions** in the plant where there will be no accumulation of chemical vapours in food processing areas; and
- d) prior to application of the product in food handling areas, all food as well as any food contact surfaces should either be removed from the vicinity or otherwise protected.

The submitted label is deemed to be acceptable for its use as proposed in food processing establishments.

We trust that the foregoing will be of use to you.

Yours truly,

Elena Emelianova, Ph.D.
Scientific Evaluator
Food Packaging Materials and Incidental Additives Section
Chemical Health Hazard Assessment Division
