Ousseynou Dieye  
Chemotec (P.M.) Inc.  
[ousseynou.dieye@safblend.com](mailto:ousseynou.dieye@safblend.com)

Dear Mr. Dieye,

**RE: Safeblend Saniblend Citric with peppermint oil (DIN 02497638)  
Safeblend Saniblend OXY with peppermint oil (DIN 024497573)  
Safeblend Saniblend Citric fragrance free (DIN 02497638)  
Safeblend Saniblend OXY fragrance free (DIN 024497573)**

This is in reference to your e-mail of September 24, 2020, wherein you submitted additional information on the subject products for use as cleaners/disinfectants with potable water rinse after the treatment in food processing establishments.

Based on the information submitted, we can advise that we see no reason to object to the composition and use of the subject cleaners/disinfectants in food processing establishments, provided that:

- a) there will be no contamination of food as a result of their use and storage;
- b) surfaces subject to direct contact with food are thoroughly rinsed with potable water after treatment with the products to remove any chemical residues resulting from their use; and
- c) **Re: Safeblend Saniblend Citric with peppermint oil and Safeblend Saniblend OXY with peppermint oil**, the use of these products will not leave any residual fragrance on food contact surfaces and will not mask odours resulting from unsanitary conditions when used in food handling areas.

We trust that the foregoing will be of use to you.

Yours truly,

X
