safeblend™

CATALOGUE

About Safeblend

We strive to be socially responsible leaders in making our environment a cleaner and safer place, all while giving back to the community.

Our products are made of premium, effective, and environmentally-preferable ingredients designed for high-performance cleaning and user safety.

The Safeblend™ team is committed to providing an exceptional customer experience with the highest level of quality assurance.

Clean Safely with Safeblend!

Certifications

We are committed to offering the best, most accessible cleaning products on the market. From our liquids and powders all the way to our bottles and packaging, every part of the Chemotec and Safeblend brands is thought out with our customers and the planet in mind.

ULECOLOGO provides third-party verification that a product is healthier and more sustainable

Made in Canada : Proudly manufactured in Canada

Recyclable : All our containers are fully recyclable

25% Recycled : All Safeblend 4L and 950 mL bottles are made of at least 25% recycled materials

Bureau of Chemical Safety : Our products are compliant with the Canadian Bureau of Chemical Safety

DIN : Health Canada Drug Identification Numbers (DIN)

ISSA : Proud member of the International Sanitary Supply Association (ISSA)

MK : All our Safeblend products are certified Kosher

Private Label

Let Our Quality Promote Your Brand!

- All Safeblend or Chemotec products can be produced via our private label program.
- Our experts will assist you with product selection, design, labelling, branding, sell sheets, and other sales and marketing tools.
- We can also certify your products with the Ecologo, Health Canada certification, Bureau of Chemical Safety acceptance and Kosher certification.
- We can also develop products to your specifications, colours, and fragrances.

Please contact our professionals at service@safblend.com for more information regarding our private label program.

Safeblend Packaging

- All of our containers are fully recyclable.
- Our green 4 L and 950 mL bottles are made with at least 25% post consumer waste (PCR).
- Our boxes contain at least 50% recycled fibre.
- Our labels use FDA approved vegetable based inks.
- We are constantly working to find innovative packaging solutions, like our SafeMix Dilution Control System and pouches, that are more efficient and better for our environment

EcoLogo

The most trusted name in safety, UL Environment's certification ECOLOGO, provide differentiation in the marketplace and third-party verification that a product is healthier and more sustainable. Ecologo Certifications are voluntary, multi-attribute, lifecycle based environmental certifications that indicate a product has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party, environmental performance standards.

These standards set metrics for a wide variety of criteria in some or all of the following categories: materials; energy; manufacturing and operations; health and environment; product performance and use; and product stewardship and innovation.

Recognized world-wide, Ecologo is North America's largest, most respected environmental standard and certification mark. Ecologo provides customers with assurance that the products and services bearing the logo meet stringent standards of environmental leadership. Ecologo certifies environmental leaders, helping you find and trust the world's most sustainable products.

The Ecologo Program is a Type I eco-label, as defined by the International Organization for Standardization (ISO). This means that the Program compares products/services with others in the same category, develops rigorous and scientifically relevant criteria that reflect the entire lifecycle of the product, and awards the Ecologo to those that are verified by an independent third party as complying with the criteria.

MULTI-PURPOSE CLEANERS AND DEGREASERS

SAFEBLEND MULTI-PURPOSE CLEANER

- Formulated to safely clean and deodorize all washable surface
- Concentrated
- Suitable for food plant use in Canada
- EcoLogo certified UL 2759
