About Safeblend

At Safeblend, we are committed to the use of new and safer technologies to produce high performance cleaning solutions that address environmental, human health and safety concerns.

All Safeblend products are Ecologo certified and proudly made in Canada with the environment and the user in mind. Safeblend products are made of premium, effective environmentally preferable ingredients and packaging which ensure high performance for a clean environment and user safety.

Our team is committed to an exceptional customer experience, quality assurance and giving back to our community.

In 2026, we are moving to a zero-carbon building. Highly energy-efficient, it minimizes greenhouse gas emissions from building materials and operations

Clean Safely with Safeblend!

EcoLogo

The most trusted name in safety, UL Environment's certification ECOLOGO, provide differentiation in the marketplace and third-party verification that a product is healthier and more sustainable.

Ecologo Certifications are voluntary, multi-attribute, lifecycle based environmental certifications that indicate a product has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party, environmental performance standards.

These standards set metrics for a wide variety of criteria in some or all of the following categories: materials; energy; manufacturing and operations; health and environment; product performance and use; and product stewardship and innovation.

Recognized world-wide, Ecologo is North America's largest, most respected environmental standard and certification mark. Ecologo provides customers with assurance that the products and services bearing the logo meet stringent standards of environmental leadership. Ecologo certifies environmental leaders, helping you find and trust the world's most sustainable products.

The Ecologo Program is a Type I eco-label, as defined by the International Organization for Standardization (ISO). This means that the Program compares products/services with others in the same category, develops rigorous and scientifically relevant criteria that reflect the entire lifecycle of the product, and awards the Ecologo to those that are verified by an independent third party as complying with the criteria.

Features and Benefits

UL ECOLOGO Certified: Provides third-party verification that a product is healthier and more sustainable

Made in Canada: Safeblend delivers high-performance cleaning solutions with dependable local supply, consistent quality, reliable service, and responsive delivery. We've been supporting Canadian businesses coast to coast since 1955.

Recyclable: All Safeblend packaging are fully recyclable

25% PCR: All Safeblend green 4L and 950 mL bottles are made with at least 25% Post Consumer Waste

Fragrance Free: Safeblend offers fragrance free options in every product category. Safeblend's fragrance-free formulations deliver powerful performance while supporting better indoor air quality and reducing irritants in sensitive environments.

Bureau of Chemical Safety: Safeblend products are compliant with the Canadian Bureau of Chemical Safety and therefore also suitable for Food Plant use.

DIN: Health Canada Drug Identification Numbers (DIN)

MK: All Safeblend products are certified Kosher

ISSA: Proud member of the International Sanitary Supply Association (ISSA)

DILUTION CONTROL SYSTEMS

- Eliminates over-use of chemicals to ensure the lowest possible cost per use
- Eliminates under-use of chemicals avoiding more work and higher labour costs
- Reduces chemical contact during mixing and pouring by hand
- Easily and accurately blends concentrates and dispenses ready-to-use cleaning products
- Consistently blends accurate dilutions for proven cleaning performance

YBC14W1

Unit includes :

- Easily identifiable colour coded product selector
- Customizable dilution ratios blend concentrates to meet your specific cleaning needs
- Low Flow
For bottles of 4 different products at 4L / minute.
- High Flow
For fast filling of mop buckets, auto-scrubbers and carpet extractors - 16 L / minute.

YBC11HI

High Flow

- For fast filling of mop buckets, auto-scrubbers and carpet extractors - 16 L / minute.

YBC11LO

Low Flow

- For spray bottles and 950mL bottles - 4 L / minute.

Identified spray bottles are available for...

- Safety.
- Accuracy
- Proper dilutions and directions
- Eliminating waste and mistakes

PORTABLE DILUTION CONTROL SYSTEM

- Eliminates over-use and under-use
- Easily and accurately blends concentrates and dispenses ready-to-use cleaning products with minimal chemical contact

Easy to use dual-dilution modes

General Cleaning

For fast filling of mop buckets, auto-scrubbers and carpet extractors, etc.

Spray Bottles

Fast and precise filling of spray bottles.

FRAGRANCE FREE

- Fragrance-free cleaning for healthier spaces.
- Safeblend's fragrance free formulations deliver powerful cleaning performance while supporting better indoor air quality and reducing potential irritants in sensitive environments.
- Ideal for healthcare facilities, schools, and hospitality settings, our fragrance-free products help protect people with sensitivities while meeting strict cleaning standards.
- Our specialized solutions minimize respiratory triggers, skin irritants, and environmental allergens without sacrificing cleaning effectiveness. With no added fragrances, or common irritants, Safeblend fragrance-free products offer a practical approach to inclusive cleaning that works for everyone.
- Safeblend offers fragrance free options in every product category.

COMING SOON: **safeFlex** FLEXIBLE PACKAGING

Innovative

Innovative technology that enables the transition from larger traditional rigid containers to flexible packaging.

Sustainable

Recyclable and contributes to reducing plastic use and resource reduction.

Performant

Advanced cleaning solutions for optimal performance.

Flexible

Flexible, lightweight packaging design provides environmental advantages as well as benefits for an excellent user experience!

Features & Benefits

Compact storage

Takes less room in the janitorial cart, closet, warehouse and in transport.

Reduces waste

Flexible package allows for full evacuation of viscous products

Easy disposal

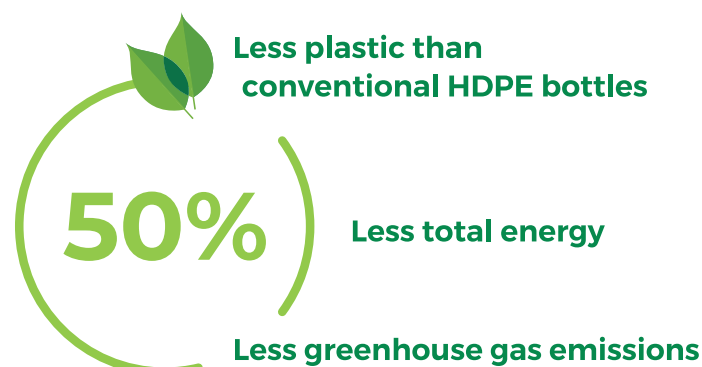

SafeFlex uses a patent-protected innovative technology, easy to use, durable, light weight and collapsible. Flat when empty – takes up less space in recycling bin

Easy to use

Ergonomic dual handle makes it easy to carry, pour and store – No splashing or glogging while filling buckets.

Resource Reduction compared to conventional packaging

SafeFlex packaging is used exclusively for **Safeblend** products which are certified **Ecologo**.
